

NHS Test and Trace

To support NHS Test and Trace (which is part of the Department for Health and Social Care) in England, the Welsh Springer Spaniel Club will collect and keep a limited record of all those who attend the open show on November 15th 2020 for the purpose of contact tracing.

By maintaining records and sharing these with NHS Test and Trace where requested, we can help to identify people who may have been exposed to the Coronavirus.

As an attendee of the open show you will be asked to provide some basic information and contact details. The following information may be collected:

The names of all attendees, or if it is a group of people, the name of one member of the group.

A contact phone number for each attendee, or for the lead member of a group of people.

Date of visit and arrival and departure time.

NHS Test and Trace have asked us to retain this information for 21 days from the date of your visit, to enable contact tracing to be carried out by NHS Test and Trace during that period. We will only share information with NHS Test and Trace if it is specifically requested by them. For example, if another person at the venue reported symptoms and subsequently tested positive, NHS Test and Trace can request the log of attendance details for a particular time period (e.g.: this may be all customers who visited on a particular day or time-band, or over a two-day period).

We may require you download and complete a track and trace form to hand in on the day or to complete a form on arrival. You can also scan the NHS Test and Trace QR Code using the NHS COVID-19 App. This will be displayed at the venue on the day of the show.

Under government guidance, the information we collect may include information which we would not ordinarily collect from you and which we therefore collect only for the purpose of contact tracing. Information of this type will not be used for other purposes (such as surveillance of an individual's movements or marketing activities), and NHS Test and Trace will not disclose this information to any third party unless required to do so by law (e.g. as a result of receiving a court order). In addition, where the information is only collected for the purpose of contact tracing it will be destroyed by us 21 days after the date of your visit.

Your information will always be stored and used in compliance with the relevant data protection legislation.

The use of your information is covered by the General Data Protection Regulations Article 6 (1) (f) – legitimate interests of the venue/establishment. The legitimate interest in this case is the interest of the venue/establishment in co-operating with NHS Test and Trace in order to help maintain a safe operating environment and to help fight any local outbreak of coronavirus.

If you do not wish your contact information to be passed to NHS Test and Trace if requested, please ask to speak to the Covid Safety Officer. However, if you require access to the show you will need to share your details for the purpose of NHS Test and Trace.

By law, you have a number of rights as a data subject, such as the right to access information held about you. If you are unhappy or wish to complain about how your information is used, you should contact a member of staff in the first instance to resolve your issue.

If you are still not satisfied, you can complain to the Information Commissioner's Office. Their website address is www.ico.org.uk
